

2024 SUMMER PROGRAMS

SOAR INTO SUMMER WITH THE LATEST EDUCATIONAL PROGRAMS
AT THE ROYAL AVIATION MUSEUM OF WESTERN CANADA

Airports Away

(Kindergarten - Grade 1)

An exciting combination of fun dramatic role play and an up-close view of our airport runways in action enables junior aviators to discover what happens at airports around the world every day.

Whirly Birds

(Grade 2 - Grade 6)

Through creative hands-on activities exploring balanced and unbalanced forces, junior engineers will discover how helicopters, drones, and other rotary-wing aircraft fly through the air.

Fun with Flying

(Kindergarten - Grade 6)

Through exploration of our immersive "Science of Flight" exhibit and our expert flight presentation, junior engineers will design, construct, and test paper aircraft in a fun competition while learning about how different forces impact flight.

Designiacs

(Kindergarten - Grade 6)

After exploring different types of wonderful and weird aircraft featured in our museum collection, junior engineers will creatively collaborate in teams to design, build, and test aircraft made out of recyclable materials.

BOOKING INFO
